THE WORKINGMAN'S OPPORTUNITY. Monday next will be a great day for the workingmen of New York. Many thousands of them will enjoy a holiday, and will unite in the public demonstration in honor of the day. Prudence, good order and sobriety will win credit for Labor in the community. Any indiscretion or disorderly conduct during the procession would be seized upon by the enemies and detractors of Labor in support of their theory that the toilers are a 'dangerous element" in the city.

Let every individual in Monday's demonstration feel that he is himself responsible for upholding the good character of Labor. Let him determine to show the people of New York that the workingman respects himself, respects the laws and is sensible of his own responsibility and importance as a member of sectety. Then Labor Day will, indeed, have its advantages for Labor beyond the few hours of recreation it affords. For it will not be forgotten by the people that and significance. That is right. CHAUNCEY nearly every man taking part in the demonstration is a citizen of the Republic, whose hard hand casts a ballot of just as much power as that which is deposited in the ballot-box by the gloved the stump. Yet the idea of a reception fingers of the millionaire monopolist, merchant or banker. Nor will the workingmen themselves fail to remember, as they recognize their power, that it will be their own fault if the rulers elected by the popular vote are not true, honest men and faithful friends of the real interests of Labor.

Workingmen of New York, be worthy of yourselves and make next Monday's celebration worthy of the day. Do not forget, however, that a gathering at the polls on Election Day to elect honest, faithful, reliable public officers is of more importance than a gatherstreets on a holiday occ

THE JOSIE SHEPRARD CASE. THE EVENING WORLD never deserts a just cause, and therefore it will not desert the cause of Josle Shephard until every possible effort to return that exiled orphan to his relatives is exhausted.

For the last six weeks representatives of THE EVENING WORLD have been at work upon a new phase of that now celebrated case. As the asylum authorities declined to surrender the boy to Mr. ANDREW GRANT, of this city, who desired to adopt him, the circumstances of the uncle, Mr. John Shep-HARD, ir., of Rochester, who also desires to care for him, have been thoroughly investi-

An application by Mr. SHEPHARD for the custody of his nephew has been in the possession of the Juvenile Asylum for several weeks. THE EVENING WORLD has secured full, explicit and unimpeachable proof of the good character and ability of Mr. SEEP-RABD to care for his nephew.

We have not yet published this evidence. because we have deemed it a courtesy due the Asylum Committee to present it first to them. The dates for the August meetings of the committee were the 6th and 20th. On each of these days a representative of THE EVENING WORLD has been on hand with important evidence, but the meetings were not held. Yesterday a representative of THE Evening World was present at a special meeting of the committee, but it did not desire to consider the case at that time.

THE EVENING WORLD now asks as a matter of simple justice that the boy, who is still in the West unindentured, shall not be bound out until the new and important evidence in favor of his return is heard and considered,

Mr. Blaine has made an attempt in a care fully written speech to head off the disastrous effect of his volunteer championship of Trusts. But it's of no use. Mr. BLAINE still insists that Congress has no right to interfere with Trusts, and that as Trusts are under State laws the people have no right to interfere with them. BURCHARD made a similar attempt to set his " Rum, Romanism and Rebellion " blunder right. He failed. And Mr. Blaine will fail to persuade the people that his "Trust and Bust" speech meant snything but a championship of the new monopolies.

The reception of CHAUNCEY M. He is better at a college desk or a dinner table than on managed by Connelius N. Bliss, Jimmy HUSTED. W. J. ARKELL and JOHN B. DUTCHER being "non-political" is comical. But Mr. DEPEW is a youth yet and can wait for polities.

Stuyvesant Park's Gates No More to Close at Sundown.

The Light and the People Come Into It Together.

A Real Gala Night for East Side Tenement-House Dwellers.

The lights are ready for lighting to-night in Stuyvesant Park, and the Secretary of the Park Commission assured THE EVENING World this morning that, such being the case, there will be no further delay in opening the grounds. So that unless some unforeseen hitch occurs the people, to whom the park belongs, will take possession of it to-night for the first time in its history.

It will be a gala night for the denizens of the east side, and especially for the people who live in the crowded tenement houses along First avenue, Avenue A and Avenue B, and the eastern section of the cross-town streets from the Bowery to Twenty-third

The beautiful grounds, bequeathed to the common people, by good old Peter Stuyvesant, will be in a glorious blaze. The glare of electric lights will make them as light by night as by day. The beautiful elms which wave their long, slender branches within the iron paling, will make a dark but dainty fretwork on the sward which will lie so brilliantly green in the refulgence of the blue-white fires that shed their rays upon it. The flowers will stand forth with an added brightness, more brilliant in their varied hues than they are in the beams of the noon-day sun. Everything will seem resplendent in the festive brightness of the illumination. But this will not be the chief feature of to-

night's inauguration. The crowds of de-lighted citizens who at last, thanks to the sturdy way in which The Evening Wonld has maintained their right to the park which has maintained their right to the park which Peter Stuyvesant gave to them, will enter into possession of that from which they have so long been unjustly debarred.

The tired mechanics and laborers, the honest, hard-headed workmen who spend the hot hours of the day in the crowded and close quarters of the town, sweating over the work which is to support wives and children, they will be there to catch the refreshing breezes which sweep through the park, to look on the soothing green of the grass, and to see waving above them the branches of the lofty elms. It will be a most enjoyable evening for them.

stored up in a stuffy rooms all the day long, who have scrubbed at the tub in the heat and closeness of their areas, or passage-ways, and have been worried by the care of children to whom they could not give all the attention they needed—they will be there.

And the children to whom the cool fresh play-ground seems a veritable paradise, they will be there. They will romp and play around the smooth walks, they will taste the charm of a large open space free from bad smells and without hot brick walls prisoning them in. How much better than the noisy street, with its garbage and dirt and constant obstacles to their free play! Oh, the children will enjoy it, perhaps, the most of all.

The rich people who have cried out against the park being opened in the evening will not be there to see the poor people enter into their own. It is a pity that they may not see the picture of happy gayety, of contented enjoyment which will be shown to-night in Stuyvesant Park.

No electric lights in the town will flash their dazzling rays on a happier assemblage.

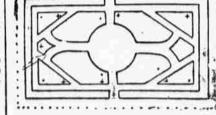

their dazzling rays on a happier assemblage. The fight has been fought, and they and their champion, THE EVENING WORLD, have on a noble victory. Justice has been

done.

If old Peter Stuyvesant could look down on the happy family of human beings which will be the recipients of his bounty to night, he could not help rejoicing that, at last, his gift is being fully applied to these for whom he intended it. More the pity that they should have ever been deprived of it. But to night they will enter into their inheritance which the voice of the city has authoritatively declared to be their lawful possession, and they will not be dispossessed again. They have come to stay. To night is their housewarming, and everybody is welcome to the pleasant square where they are both hosts and guests.

some unforseen occurrence should come to pass.

The companies' contract binds them to furnish each lamp burning all night for 35 cents per night. This will make au expense for the two squares of \$5.60 each evening.

The expense of putting in the poles has been about \$175, and counting in the wire and minor details the cost of furnishing the park with the whole outfit has been about \$200.

That amount of money could not have been put to a better or a more reasonable use. The benefit which the cool hours of the evening will be to the thousands who will seek to en position of the tadmants who will seek to enjoy them in the green cloister of Stuyvesant Park cannot be calculated in dollars and cents. It means health for alling women and stickly children. It means rest for tired men and still more tired women.

It means innocent recreation for little children.

dren, the offspring of the poor, whose pleasures are so few and whose deprivations are so many. And for all, for the men, the women and the children, it means a ray of sunshine let into their lives, a comfort that helps to take the edge off the hard lesson they seemed

to have constantly taught them by their daily experience that the pleasures and comforts of life were not for them, but only and all for the rich.

Such a lesson does more to destroy Socialistic germs in the heart of the workers than any amount of argument can do. The people are not unreasonably exacting, and for the good they receive they are duly appreciative and grateful. What is simpler than that they should be granted their rights? This is all that is asked. Happily, in this instance of Stuyvesant Park, they have received full justice, even if it is tardy.

So The Evenino World congratulates them and cannot but share in the satisfaction that will fill the hearts of those who will be in Stuyvesant Park to night. After the years of alieniation from its legitimate use, after summer evenings when it was given over to darkness and barred gates, it is at last thrown open, and a flood of light comes to chase away the shadows and make day of night.

The legend on the iron gate to the effect

night.
The legend on the iron gate to the effect that "The park will be closed at sunset" clung obstinately on to the very end. But if it is not removed to-day it convicts itself as a lie.

Congratulations, then, of The Evenino World to the people on this gala night. It will be literally and figuratively the brightest in the history of Stuyvesant Park.
